

10 CRITICAL QUESTIONS REGARDING YOUR TRAINING INITIATIVES

Questions	YES	NO
Has micro-learning, virtual reality, augmented reality or mixed reality begun to transform your traditional training techniques?		
Does your organization understand the training methodologies required to attract and retain millennial employees?		
Have you developed a training Industry 4.0 technology roadmap?		
Has Industry 4.0 fostered a closer collaboration between EH&S and operations for development of new training models?		
Does your site employ wearables with sensors for any applications?		
Have you established a technology committee, team or work group?		
Have you implemented mobile field technologies for work permits, checklists, or procedures?		
Are safety lessons learned incorporated into your daily safety talks and subsequently become new policies and procedures?		
Do your safety audit action items appear repeatedly on future audits with the same root causes?		
Can you provide front line employees with the right information, in the right context, at the right time and in the hands of the right person?
